# SY-01SL – High Speed gate

Synel order number -

SY-01SL Side unit –   155087
SY-01SL Center unit - 155088

Features:

- Problem self-recovery and corrective measure ability, convenient maintain and adjust.

- Motherboard with high clean sound read chips which could broadcast in light of user's requirement.

- Human base model indication function, real time displaying, improve the passing rate and convenient maintain.

- Automatic counting indicating passenger's number.

- Resetting automatically, auto cancel the pass through and closed barrier in case nothing passes the channel in a setting time.

- Anti-pinch function with UPS to satisfy firefighter requires, ensure user's safe.

- Break-in, tail, over-pass and reverse alert function in order to keep orderliness and effectively manage.

- Standard input/output port, meanwhile leaving a port space for installing RS485 communication, connect and manage the integrated systems through the remote PC.

- Super combination capacity, adjustable model on site, adjustable speed of barrier slide, Open signal with memory or without set function.

Technical specifications:

Power voltage	AC220±10%, 50Hz	**Drive voltage**	DC24V 20W
Dimension (Customized Optional)	1400*335*1000m	**Communication port**	RS485
(Operation condition)	-30℃～+70℃	**Material:**	SS304 Cover thickness:1.5mm Cabinet thickness:1.2mm
Relative humidity	≦95%, None-condensation	**Open direction**	Single and Double (optional)
Input signal	12v DC level or 12v pulse>100ms	**Gate opening and closing time**	0.5s
Working Current	≤2000mA	**IP Degree**	IP43
Length of the bar	260mm	**Width of passage**	≤550mm
Pass speed	≦30 person/minutes	**Service life**	≥5 million times
